PREAMBLE

Kongoni ECD center is a public school based in Timau area at the boundaries between Laikipia and Meru Counties.

The activity was carried out on 17th and 18th October 2017

vs

Above pictures show preparations for medical screening ongoing at Kongoni ECD

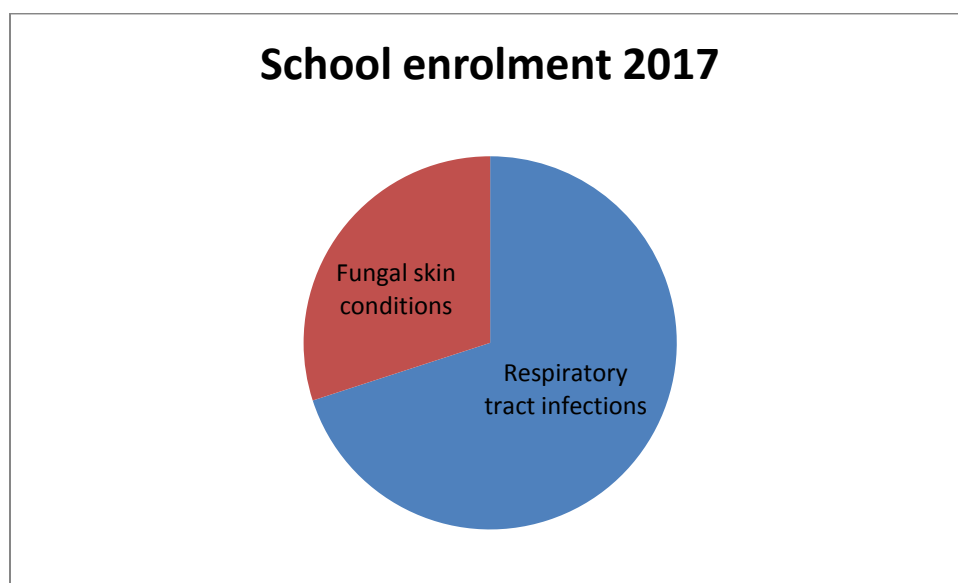

Pictures showing parents and guardians being given a health talk by our team. The talk features on importance of hand washing, personal hygiene, and good nutrition. Invited area public health official was part of the health talk

Summary of Examination Findings

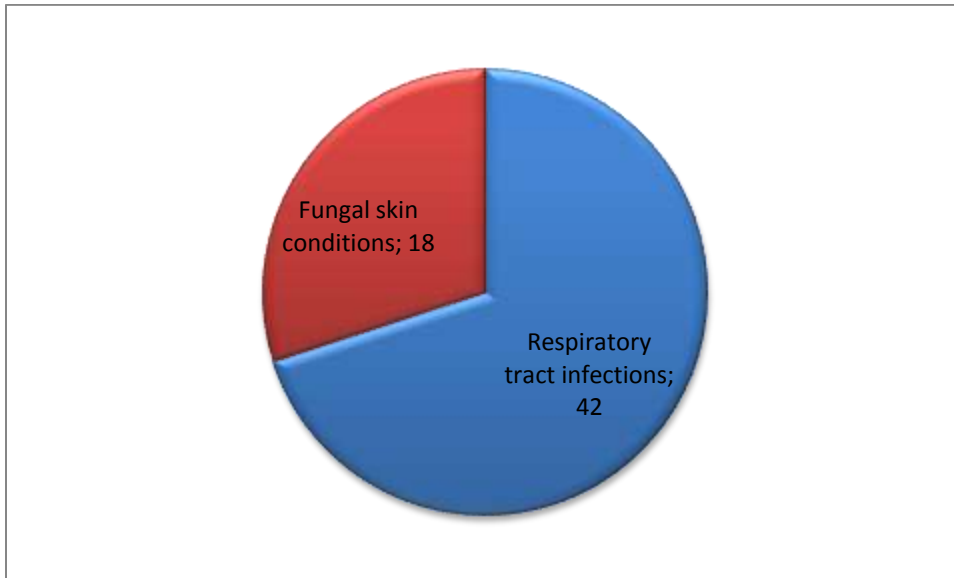

Item	Quantity
Total school enrolment	85
Number of children reached	82
Out of school children who benefited from free medical screening and treatment for minor ailments	11
Number of children with medical conditions – further recommendations made – highlighted in red	9
Number of adult community members who got screened for non communicable diseases and also dewormed	21
Adults with high blood pressure (referred to higher medical facility for further management)	2
Children given Vitamin A (200,000IU) immune booster (both in and out of school)	93
Children given dewormers	89

SUMMARY

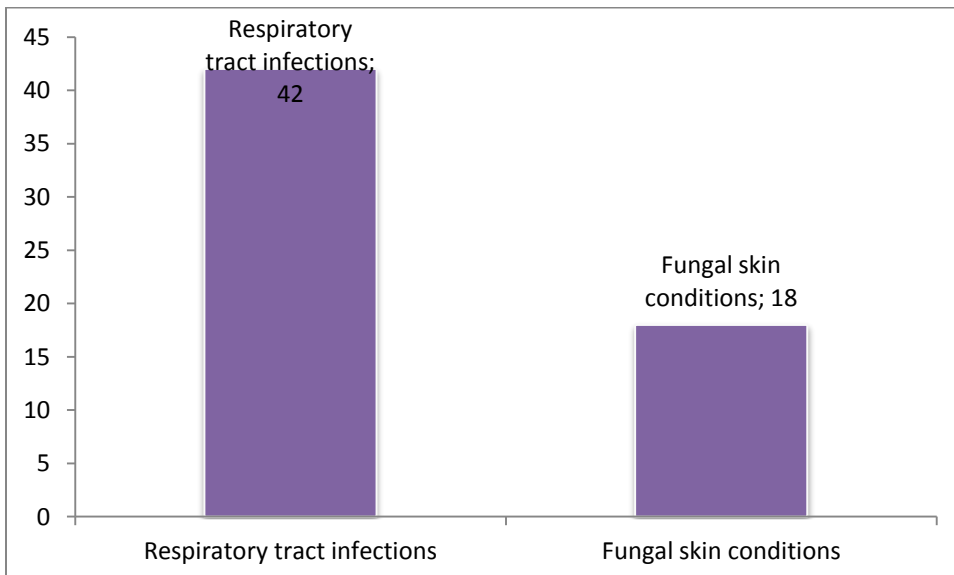

Above chart shows a slight drop in the number of children enrolled to Kongoni ECDE during our October screening compared to May 2017

Number of beneficiaries from the medical screen

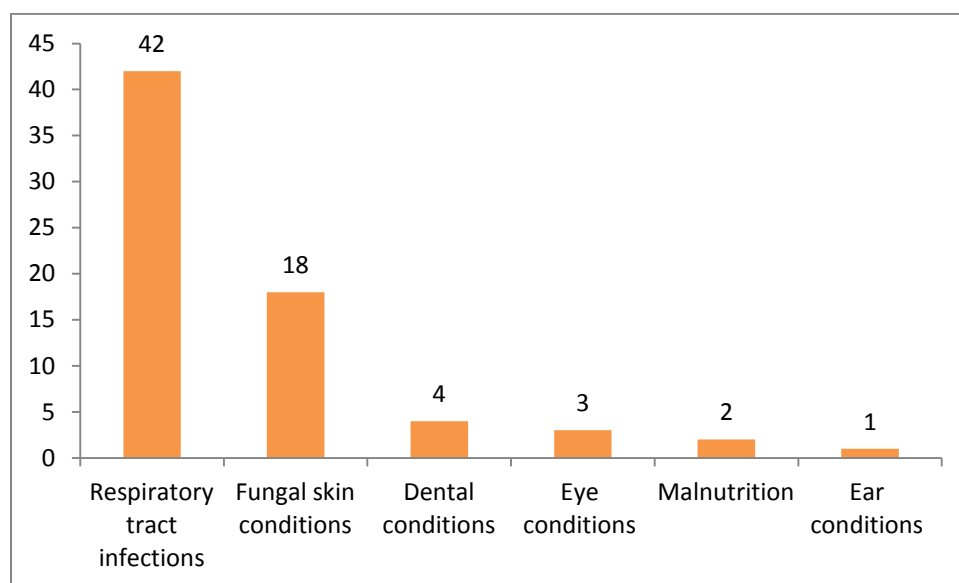

Above chart shows the number of children who benefitted from the medical check up to be 87 despite the school enrolment being 81. Parent and guardians opt to bring along their ailing infants to benefit from the medical screening and get treatment

Total number of beneficiaries

Though the medical screen is meant to benefit kids who are enrolled at Kongoni ECD, the benefits go beyond the kids. Parents and guardians have increasingly benefited from this activity

Summary of conditions

Detailed individual examination findings (children)

Name	Gender	Age (Yrs)	Wt In Kgs	Ht In Cms	Muac	Current Findings	Recommendation/Rx (All Children Were Given Vitamin A Immune Booster And Dewormers)
EllyLoitaba	M	6	18.8	115	13.2	Pneumonia	Amoxyl, Tricohist, Paracetamol, Vit A, ABZ
Clinton Mutharimi	M	4	17	103	15.1	Fungal Infection /URTI	Clotrimazole Cream, syrup Piriton
Mark Gikunda	M	4	20.5	111.3	15.7	Fungal Dermatitis	Clotrimoxazole Cream, Septrin
Vin MericMugambi	M	5	20.3	121.2	16.5	N.A.D	Improve on personal hygiene

	Faith Karambu	F						Brufen
	Lilian	F						Amoxyl
	James Lokanta	M						Amoxyl, Brufen, Flagyl
	Nickson Mwirigi	M						Syrup Amoxyl, Syrup piriton, Syrup Paracetamol
	Dorcac Kendi	F						Clotrimazole cream

Below pictures shows the medical team with variety of basic medical drugs and nutritional commodities available during this activity

vs

Kids undergoing anthropometric measurement and nutritional assessment, Infants also benefited from this activity

vs

The new kitchen block which is already in use is great step towards improved hygiene in food preparation. We take this opportunity to thank our partners for this great step

well arranged well arranged store

We recommend shelves around the work top to improve on storage capacity and safety

Another milestone is the new sanitary block. Personal hygiene is greatly enhanced

Conducive atmosphere for learning and happy kids is our ultimate goal

Recommendations

- ❖ The community appreciates efforts being made to ensure good learning outcomes for their children in this school
- ❖ We intend to intensify free medical services and health education through free medical camp at least twice a year. This will help to sensitize the community on communicable diseases e.g. HIV, TB and non-communicable diseases
- ❖ The current weather conditions (rainy and cold) might have contributed to increased cases of respiratory conditions witnessed during this visit.

Regards

George Mochama – Medical team lead
